

Virtual Baker®

The Virtual Baker® is an AI-powered assistance system for your oven. It simplifies usability, processes and amplifies quality at your POS and bakery.

The Virtual Baker® is available in two configuration levels:

Virtual Baker® Starter

- + Live oven view
- + Photo and video documentation in BakerIT Cloud™
- + Remote control oven
- + Customizable oven loading signals and alarms
- + Product identification

Virtual Baker® Unlimited

- + All Virtual Baker® Starter features
- + Autonomous oven load detection
- + Full rack view
- + Adaptive baking
- + Automated baking program selection
- + Baking on Demand

Benefits

- + Increase quality with every batch while minimizing efforts
- + Stores baking data, learns and adapts for increased quality and efficiency
- + Optimize energy input
- + Minimize management efforts, training costs and user mistakes

Also available for your oven!
